# Commodore's Report

Welcome to July everyone. Summer is in more than full swing. Regatta is just a few days away and things are underway to make it great. We are moving the event to the Club side and we are trying something new. I hope everyone takes some time to get some work hours in and spend some quality time with your fellow members. Please share the posts on Facebook on your pages and push the Regatta info everyday so we can make this year outstanding. See you all at the Regatta and of course the workers party on Sunday!!

# Vice Commodore's Report

Ahoy!

It's that time of the year again – Regatta Time!! The perfect opportunity for everyone, especially new members, to get their work hours in. We need help with everything from setup, security, to clean-up and dock hands. There's a job for everyone!

Why volunteer for Regatta?

- It's a fun way to support OUR club!
- You will earn your required work hours
- You will meet new members and feel the spirit of OUR club
- Regatta memories are made behind the scenes too!

Sign up sheets are posted in the clubhouse. Let's work together to keep our Regatta running smoothly, showcase the best of our club spirit, and support our Commodore, Ken Campbell, with his Rock'n the River On Edgewater Drive in 2025 Regatta weekend!

Speaking of new members, we would like to welcome the following new members that joined in June:

Cindy Martinez

John Knerr

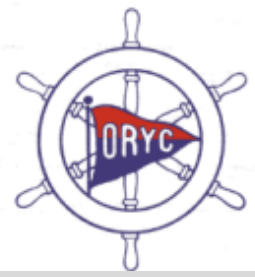

Darren Calhoun

Mike Schlicher

PLEASE REMEMBER – When doing any work around the club, make sure to write the information on a work hour sheet (your name, card number, and the hours worked). If you don't, you will not get credit for them! Also, the work hours are updated and listed on the board at the main entrance, feel free to check them. If you find a discrepancy, please get in touch with me to get this corrected.

Have a great month & see you at Regatta!

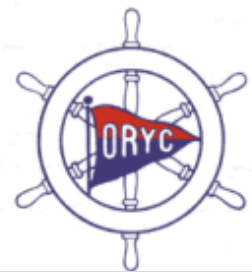

V/C Kevin Barber

# From the Historian

## Nautical Terms

### ABOVE BOARD

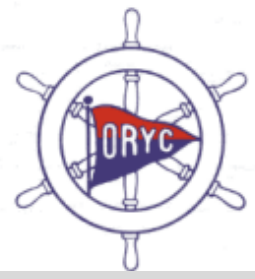

The origins of his phrase relate to Pirates. A Pirate ship hid the bulk of the men below deck, (Below Board) in order to look innocent to the merchant ships they intended to pillage. Also, early merchants' ships would hide their illegal cargo below the ships dec. Legal cargo would be placed in plain sight on the deck or above board. So, the term above board means everything is O.K.

### ALOOF

If a vessel was in danger from being blown onto a lee shore the captain would order "Keep Aloof" to make sure the vessel stayed clear of the shore. "Keep Away From, Keep your distance," from the danger.

# From the Historian

## GIVE A WIDE BERTH

When a ship was riding anchor, it is called a berth. To give a wide berth was to allow the vessel to be able to swing about without coming in contact with other vessels. Now it means to stay clear of someone or something that is dangerous.

## BILGE WATER

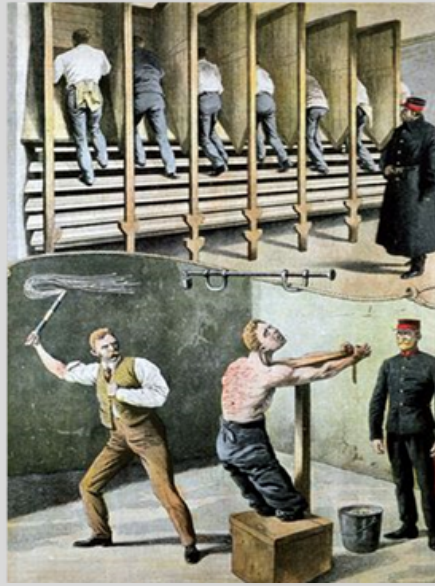

Bilge water is disgusting nasty, giving off an odious smell, full of unpleasant garbage. Taking bilge is the same as spouting rubbish, or bullshit.

## BITE THE BULLET

# From the Historian

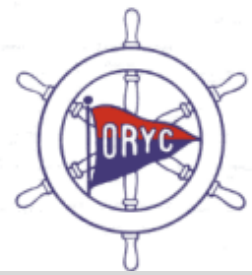

Men who were forced to undergo a flogging, whipping, for offensives against the king's navy were giving a bullet to bite down on to, to help deal with the pain inflicted by the Cat-O-Nine-Tails

GET SPLICED, GET HITCHED

To get married, as when two ropes are joined together.
